Spain	Ignacio Garcáa-Espona		
Spain			
Sweden			

Switzerland Jan Danz
 Turkey Muge Asku İlhan Ramaglou

3. Minutes of 51st GAM, Zoom, June 2020

4. Changes and amendments to the agenda

5. Reports

5a. Report from President: EOS meeting will be virtual this year. The EOS congress in Limmassol was cancelled for 2021 hopefully held 2022. Important initiative has been raised by Christian Scherer: Joint declaration of DIY (Do it yourself) orthodontics or remote orthodontics. The president of Spain, Ignacio Garcaa Espona has met with Julian and Kristin as well as others in order to have support for the recognition of the specialty in Spain. Ignacio was liased with the Austrians, in order to get support from their exoerience. This is the last council meeting for JO and KH.

5b. Report from the Secretary: Firstly, KH has contacted (after having received e-mails from Valentina Kulak, the president of the Estonian orthodontic Society) the presidents of the Lithuanian orthodontic Society Dr. Antanas Sidlauskas (Antanas.Sidlauskas@ismuni.lt) and the Latvian orthodontic Society Dr. Peteris Sosars (peteris.sosars@ortodontija.lv) and invited them as guests to the GAM. They also received the joint declaration for their societies. Hopefully, they will apply for membership and be active in EFOSA.

A member has contacted the secretary and asked for help regarding bad behaviour of a colleague – they would preferably like to exclude him from the society. Decided to talk about this at the GAM and about experiences regarding this matter.

KH was contacted because of some e-mails still in the directory of the website. It was decided a while ago, that the webmaster would have the directory eliminated from the homepage, AdVC will take this further.

5c. Report from the Treasurer: Accounts, membership dues and budget 2020-2021: Not much has been given out, since no actual meetings have been held. 3 non-payers for 2020 Denmark, Greece and Slovenia.

6. Auditors' report Jonathan and Odile: accepted
7. ESAS – updating updating Questionnaire reduced to 6-8 questions (orthodontic quality questionnaire). ESAS chart developed. Bart prefers to present it next year life in Cyprus except for the questions.

BVV

8. EFOSA Project Radiation Guidelines publications and website Results are ready, paper is ready for proof. BVV

9. Website updating and directory The website needs some refreshing, should be updated and perhaps made completely new. Treasurer agrees on spending some thousands of Euros on that – 6-10 thousand Euros. All e-mails should be removed from the Directories. The projects of the web-master should be handed over to the secretary.

10. Platform for Oral Health in Europe BVV had a meeting this year, information has been sent out. <http://www.oralhealthplatform.eu> BVV

11. CPD project Has been complicated. Ivo has contacted some societies more than ten times. Ivo will make a short presentation – data from 29 countries, still missing from 14 countries. Probably best to present the complete data in Cyprus 2022. A short presentation for tomorrow's meeting, in order to gain more information.

IM

12. Future collaboration with FEO they were interested to do a collaborate work with EFOSA. Originally the idea was CPD, but since the Joint declaration has given so much attention, that might be more desirable. JO

13. DIY orthodontic initiative DIY orthodontic initiative from Christian Scherer – We have been witnessing a number of DIY-orthodontics with aggressive marketing in the media. Disruptive technology is their claim to fame. A few producers coming in with big money, in Germany more than expected, lobbied politicians. Cases where treatments went dramatically wrong. Even though lawsuits have been successful, they change their strategies and adapt to new conditions. Therefore, it should preferably be signed by half of the professional world, that DIY orthodontics is harmful to dental health. Jonathan Sandler is a board member of WFO and will address WFO. Until now 18 countries have

given in their signed declaration: Czech Republic, Denmark, Finland, France, Greece, Italy, Iceland, Luxembourg, the Netherlands, Norway, Poland, Portugal, Switzerland, Spain and Turkey have already signed. Encourage as many as possible to sign before the meeting on June 7th with the Council of European dentists. Caroline Heilpern, policy officer for CED has organized a meeting with Dr. Marco Landi and Dr. Sloth-Lisbjerg along with the president and secretary of EFOSA, former and elect.

CS

14. EOS 2020 and 2021

JO / IM

15. NEBEOP update Teachers forum was cancelled last year, but this year only on-line. 23rd of June NEBEOP meeting. There are 30 full members of NEBEOP, new members Sheffield University and upcoming. 20 provisional members and 2 new schools are applying, Strasbourg and Firenze. New in NEBEOP: Website is under construction. Three webinars have been arranged by NEBEOP, 200-300 postgraduate students have been attending. Guy Willems will be the new president of NEBEOP this summer.

JO/Pertti Pirttiniemi

16. Membership update

KH

17. Changes to Council 2021 – President and Secretary

JO/ KH

18. Future meetings

17a. GAM, EOS meeting, June 2021

19. Any other Business

20. Closure of Meeting.
